SUMMER 2024

MY HEALTH. MY HOME. MY HOSPITAL.

Celebrating THE FIRST 55 YEARS

STE. GENEVIEVE COUNTY MEMORIAL HOSPITAL'S RICH HISTORY PREPARES US FOR A BRIGHT FUTURE.

Since 1969, Ste. Genevieve County Memorial Hospital has provided quality health care you can trust. While much has changed over the past 55 years, our commitment to you remains steadfast.

"We want to reassure the community that we're committed to remaining an independent hospital," says Rodney Scherer, who has served as board chair at Ste. Genevieve County Memorial Hospital for 37 years. "We're in a very strong financial position and are eager to continue serving those who come to us for care."

WHERE WE'VE BEEN

Ste. Genevieve County Memorial Hospital has changed significantly since its early days. We are pleased to continue the remarkable growth and innovation that have defined our hospital. The hospital has grown from 42 employees in 1969 to more than 500 today. Of the staff, we have 270 employees who have a long tenure with the organization.

As the years have quickly gone by, the hospital has made some major accomplishments. From 1972 to 1978, the hospital expanded through renovations. In 1980, the emergency room, surgery department, laboratory, and diagnostic imaging were upgraded and expanded to help increase patient services. In 1993, a 21,000-foot addition to the original building was constructed to provide an outpatient rehabilitation facility.

In 2001, a new cancer care facility opened, adding 1,500 square feet for patients to receive treatments in private rooms. A new, state-of-the-art emergency room opened in 2008, Bloomsdale Medical Centre opened in 2012, and the surgical center was expanded in 2015.

Technology is always a top priority in the healthcare industry, and

Ste. Genevieve County Memorial Hospital has invested in cutting-edge technologies, including MRI, CT, and 3D and stereotactic mammography, to provide patients with the best care. A new electronic health record system and patient portal have been implemented this year with endless opportunities.

As we continue to prosper, we have been named one of the Top 150 Best Places to Work in Healthcare 2024 by Becker's Hospital Review. We're also welcoming a new board member, and our leadership team is stronger than ever.

WHERE WE'RE GOING

To continue meeting your needs in the future, Ste. Genevieve County Memorial Hospital plans to further improve access to care.

As we celebrate our 55th anniversary, we also look toward the future with optimism and determination. Ste. Genevieve County Memorial Hospital remains steadfast in its mission to provide exceptional healthcare services and strengthen the health and well-being of our community for generations to come. With your continued support, we are confident that we will continue to make a positive impact and uphold our legacy of compassionate care with our goal of being safe, effective, and connected.

Best Places to Work

Ste. Genevieve County Memorial Hospital has been named in the 2024 Becker's Hospital Review list of 150 Best Places to Work in Healthcare. The list highlights hospitals and health systems that prioritize workplace excellence and the happiness, satisfaction, and well-being of their employees.

A New Era for Our Board

Ste. Genevieve County Memorial Hospital welcomes Brock Gibson to its Board of Trustees. Brock won his election to the post on April 2 and replaces Mark Fallert who did not run for re-election but served on the board for 25 years.

Ste. Genevieve County Memorial Hospital recognizes Mark for his dedicated years on the board and wish him the best.

Expanding our Primary Care Team

Ste. Genevieve County Memorial Hospital is excited to welcome family nurse practitioner Preston Holifield, FNP, to the Family Health Care – Pointe Basse team of providers.

Originally from Arkansas, Preston earned his undergraduate degree at Southeast Missouri State University, where he later earned his degree as a nurse practitioner and met his wife, Alyssa.

Preston joined the team at Ste. Genevieve County Memorial Hospital in September 2023. Passionate about mental and physical health, he provides family medicine care for patients of all ages.

"I wanted to be a healthcare provider from a young age," Preston says. "My family doctor inspired me to pursue a health career and to do it for the right reasons. I'm excited to be here, and I'm ready to make a difference."

When not serving patients, Preston enjoys playing guitar, relaxing with friends, and competing in jujitsu competitions.

PRESTON IS ACCEPTING NEW PATIENTS. CALL 573-883-2782 TO SCHEDULE AN APPOINTMENT.

BENEFITS OF THE NEW PORTAL

EXPANSE BY MEDITECH, OUR NEW ELECTRONIC HEALTH RECORDS SYSTEM, MAKES MANAGING YOUR HEALTH EASIER.

“It is important for patients to be involved in their care,” says Judy Schmieder, RN, BSN, LSSGB, director of clinical informatics at Ste. Genevieve County Memorial Hospital. “The patient portal is a great tool for viewing and tracking doctor visit information, upcoming hospital and clinic appointments, medications, immunization records, allergies, and lab and X-ray results.”

Here are four more ways the portal empowers you to stay in charge of your health.

- 1. Secure messaging.** “Everyone thinks of questions outside normal doctor’s office hours,” Judy says. “Instead of waiting until the office is open, a patient can send a secure, non-emergent message via the patient portal.”
- 2. Medication and appointment requests.** Don’t wait for an office to open to request medication refills and appointments with your provider. Both can be done any time through the portal.
- 3. Access to your family’s medical information.** If you need to manage the health of someone in your family—for example, your spouse, child, or parent—that person can fill out a consent form, giving you proxy access.
- 4. Easy bill payment options.** The new patient portal offers you the ability to view and pay bills electronically. You’ll also be able to preregister for appointments, saving you time on the day of your visit.

If you had an account in our previous portal, you can continue to log in with your username and password from the old portal. Your health information from the previous portal did not transfer to the new portal, but your Ste. Genevieve County Memorial Hospital providers can still access that information.

To ensure your health record is accurate, please bring your medication list, insurance card, and photo identification to your next medical visit.

TO ACCESS THE NEW PORTAL, VISIT WWW.STEGENEVIEVEHOSPITAL.ORG OR DOWNLOAD THE MEDITECH MHEALTH APP ON YOUR MOBILE DEVICE.

Healing Wounds

STE. GENEVIEVE COUNTY MEMORIAL HOSPITAL OFFERS COMPREHENSIVE WOUND CARE SERVICES CLOSE TO HOME.

For chronic wound care, look no further than the Wound Care Program at Ste. Genevieve County Memorial Hospital.

“Our experienced staff is dedicated to helping patients with chronic wounds heal faster,” says Cathy Hutcheson, director of clinical education and wound care. “We understand that these types of wounds can affect not only your health but your quality of life.”

WHAT CAUSES CHRONIC WOUNDS?

Many factors can contribute to nonhealing wounds, including:

- Immunosuppression due to illness or certain medications
- Ischemia, or reduced blood flow in parts of the body
- Mobility problems
- Neuropathy, or nerve damage

Age can also play a role, as can chronic emotional stress and certain underlying illnesses, such as diabetes and vasculitis.

WHEN TO SEEK WOUND CARE

If you have wounds that are not healing, it’s important to seek treatment, as these wounds can become infected and cause serious complications. Schedule an appointment with our wound care team if you have wounds that:

- Are difficult to keep clean
- Are more than a month old
- Bleed continually, even with pressure and elevation
- Show symptoms of infection, such as swelling, redness, and pain

During the initial assessment, your provider will do a physical review and assess your wounds, as well as go over your medical history. Your provider will also review other factors, such as nutritional deficiencies, that can delay wound healing. After the evaluation, you will receive a treatment plan focused on addressing your wound and underlying factors that may prevent proper healing.

Additional services such as home health, durable medical equipment, and consultations with specialists are also available through the program as needed.

CALL 573-883-4464 TO SCHEDULE AN APPOINTMENT FOR WOUND CARE SERVICES OR TALK TO YOUR PRIMARY CARE PROVIDER ABOUT A REFERRAL.

Rx for a Healthy School Year

IT’S TIME TO SCHEDULE YOUR CHILD’S ANNUAL CHECKUP WITH ONE OF OUR PROVIDERS.

With back-to-school time fast approaching, you likely have many things on your to-do list. Make sure taking your child for an annual checkup is near the top of the list, especially if your child plays school sports. We have pediatricians, family medicine doctors, and nurse practitioners to help your child have a healthy school year.

GROWING TOGETHER

Even if your child has been to the doctor for a different reason during the year, it’s still a good idea to get a back-to-school checkup. This annual visit gives the pediatrician a chance to assess your child’s overall health and follow your child’s growth and development over time.

During the visit, your child’s provider may:

- Administer immunizations
- Check your child’s blood pressure
- Discuss diet, exercise and sleep habits, and social or emotional concerns
- Listen to your child’s heart
- Perform a physical exam
- Perform hearing, vision, and other screening tests as necessary
- Record your child’s height and weight

The annual back-to-school checkup is also the perfect time for you to ask questions and talk about specific concerns you may have for your child.

FAMILY TIME

Annual checkups are important for other members of your family, too, so use the opportunity to schedule annual physicals or a Medicare annual wellness visit for yourself and your spouse.

These visits help you stay on top of vaccines for seasonal illnesses, such as the flu and respiratory syncytial virus, as well as screenings that can identify diseases early when they’re easier to treat.

5 TIPS FOR A Safer Summer

HAVE FUN AND AVOID INJURY WITH THESE SMART STRATEGIES.

Summer is the perfect time for outdoor fun with your family. It can also be prime time for accidents and injuries. Using caution and following a few simple suggestions can help keep children and adults out of the doctor's office all season.

1. **Beware of bugs.** Insect repellent can protect against mosquitos, ticks, fleas, biting flies, and other small insects.
2. **Opt for community fireworks displays.** Nothing says summer quite like fireworks on the Fourth of July, but the safest way to enjoy them is at displays put on by professionals, not in your driveway. If you must use fireworks at home, have a trusted adult in charge. Wear eye and ear protection, and keep a fire extinguisher handy.
3. **Play it safe.** If your family is hitting the streets, bike trails, or skate park this summer, make sure your children wear proper gear. Helmets are a must, and children on skateboards or scooters should wear knee and elbow pads, too.
4. **Slather on sunscreen.** Apply sunscreen with an SPF of at least 30 to exposed skin when you're outdoors during the day. Hats, sunglasses, and long sleeves also provide sun protection. Reapply sunscreen every two hours and after sweating or swimming. If possible, try to stay indoors from 10 a.m. to 4 p.m., when the sun's rays are strongest.
5. **Be water wise.** Closely supervise your kids at the pool or lake—drowning can happen in an instant. If possible, have another adult with you, so you can share "water watcher" duties. Always wear life jackets in boats, and use age-appropriate flotation devices in pools if your child is not a strong swimmer.

IF THE UNEXPECTED HAPPENS DURING YOUR SUMMER, STE. GENEVIEVE COUNTY MEMORIAL HOSPITAL OFFERS WALK-IN SERVICES AT TWO LOCATIONS AND EMERGENCY CARE 24 HOURS A DAY, SEVEN DAYS A WEEK.

Fast Care When You Need It

Visit our Walk-in Clinics in Bloomsdale and Ste. Genevieve.

Celebrate Summer's Bounty

GET SOME OF YOUR DAILY SERVINGS OF FRUIT BY INCORPORATING FRESH INGREDIENTS INTO DINNER AND DESSERT.

Grilled Shrimp with Cantaloupe Avocado Salsa

This easy grilled dinner is packed with healthy fats, protein, and vitamins.

INGREDIENTS

For the salsa:

- 1 lime
- 1 avocado, cubed
- 2 cups cantaloupe, cubed
- ¼ cup red onions, diced
- 1 cup no-salt-added canned black beans, drained and rinsed
- 2 tablespoons fresh cilantro, minced
- Salt and pepper to taste

For the shrimp:

- 1 pound large or jumbo shrimp, uncooked
- 1 tablespoon canola oil
- 1 clove garlic, diced
- Brown rice, cooked

NUTRITIONAL INFORMATION

Makes four servings

- Calories: 241
- Total fat: 10g
- Cholesterol: 141mg
- Sodium: 856mg
- Total carbohydrates: 21g
- Dietary fiber: 7g
- Total sugar: 7g
- Protein: 20g

Recipe courtesy of www.myplate.gov and Produce for Better Health

DIRECTIONS

1. Preheat grill to medium heat.
2. Slice lime in half. Juice one half of lime in small bowl. Slice other half into wedges and set aside.
3. Toss remaining salsa ingredients with lime juice.
4. Peel and devein shrimp, leaving the tails on. Thread onto four bamboo skewers.
5. Mix together oil and garlic and brush onto shrimp skewers.
6. Grill four to five minutes or until cooked.
5. To serve, place shrimp on rice. Top with salsa and garnish with reserved lime wedges.

Strawberry Kiwi Yogurt Pops

Use a variety of berries or fruit for fresh flavors all summer long.

INGREDIENTS

- 1 cup low-fat vanilla yogurt
- 1 kiwi (peeled and chopped)
- 4 large strawberries, stems removed (about a 1/2 cup, chopped)
- 1 ice cube tray (or paper cups)

DIRECTIONS

1. Cut fruit into small pieces.
2. Mix fruit and yogurt.
3. Divide into four small paper cups (or eight ice cubes) and insert popsicle sticks (or cut paper straws).
4. Freeze.
